Teerapop Junchean

About Me

I'm a front-end developer and I can be a back-end developer too. My name is Teerapop Junchean. I'm 21 years old. I'm studying at Bangkok University. I'm into blockchain and defi right now and I'm ready to work. I'm seeking for stable company which is about blockchain.I will surely be able to benefit your company.

Experience

2021

RANIRON

I have created a mini project that is about random numbers by using solidity for the back-end in this system and react for the front-end.

2021

The Rich

This is about decentralized finance (Defi) and NFT marketplace project that I used to do. I will keep doing the next one which is decentralized exchange (DEX) for my graduation project.

2021

AADS (Army Air Defense System)

BU-MIT (Bangkok University)
